Come acquistare gli abbonamenti:

- a) www.velospot.ch (locarnese e bellinzonese)
- b) Tramite smartphone con le apposite app **Velospot 2.0**

Android

iOS

Scopo del Bike Sharing

Il Bike Sharing, come altri mezzi di condivisione, è uno degli strumenti di mobilità sostenibile a disposizione delle amministrazioni che intendono incentivare l'utilizzo dei mezzi di trasporto pubblici (autobus, tram e metropolitane), integrandoli tra loro (trasporto intermodale) e completandoli con l'utilizzo delle biciclette condivise per i viaggi di prossimità dove il mezzo pubblico non arriva o non può arrivare. È quindi una valida soluzione al problema dell'"ultimo chilometro", cioè quel tratto di percorso che separa la fermata del mezzo pubblico dalla destinazione finale dell'utente.

Il sistema è già presente nel locarnese con 489 biciclette, tra cui 269 ebike, in 96 postazioni sparse sul territorio. Con le ulteriori 6 postazioni e 45 ebike del bellinzonese, si va a potenziare un servizio anche a favore del turista. La gestione di tutto il sistema viene garantito dalla Fondazione Il Gabbiano, con il suo progetto Muovi-TI, che ha maturato un'ottima esperienza grazie alla rete urbana di Locarno. La stessa si occupa di aiuto a giovani in difficoltà, in particolare, si è specializzata nella promozione del reinserimento socio-professionale delle persone.

Come abbonarsi

È possibile sottoscrivere un abbonamento annuale grazie al nuovo ed aggiornato sito internet www.velospot.ch. Oppure tramite l'Applicazione per smartphone: Velospot 2.0 sia per sistema Android che iOS.
